

109214 to 109406—Continued.

109387. TRIFOLIUM sp.
No. T-256. October 4, 1934. Collected 12 miles north of Tosya.
109388. TRIFOLIUM sp.
No. T-226. October 2, 1934. Collected along an irrigation ditch, 62 miles south of Samsun.
- 109389 to 109391. TRIFOLIUM spp.
A collection of hop clovers with large bright-yellow flowers.
109389. TRIFOLIUM sp.
No. T-313. October 5, 1934. Collected 25 miles south of Kastamonu.
109390. TRIFOLIUM sp.
No. T-267. October 4, 1934. Collected 15 miles north of Tosya.
109391. TRIFOLIUM sp.
No. T-330. October 9, 1934. Found near a stream 12 miles from Bolu.
109392. TRIGONELLA sp. Fabaceae.
No. T-326. October 8, 1934. From dry gravelly soil in a valley 46 miles north of Kizilja Hammam. It does not seem to be eaten by stock to any extent.
- 109393 and 109394. Collected October 5, 1934, in the mountains south of Kastamonu.
109393. VICIA sp. Fabaceae.
No. T-312.
109394. SATHYRUS PRATENSIS L. Fabaceae.
No. T-303.
109395. VICIA sp. Fabaceae.
No. T-217. October 2, 1934. Collected 12 miles south of Samsun.
109396. VIGNA SINENSIS (Torner) Savi. Fabaceae.
No. T-352. October 10, 1934. *Borluse*, black-eyed peas from Adapazari.
109397. VITIS VINIFERA L. Vitaceae.
European grape.
No. T-247. October 3, 1934. From Chorum. A very large blue grape which is almost seedless.
- 109398 to 109400. ZEA MAYS L. Poaceae.
Corn.
- 109398 and 109399. October 10, 1934; two types of corn grown in the vicinity of Adapazari.
109398. No. T-377. White.
109399. No. T-377-A. Yellow.
109400. No. T-275. October 4, 1934. Popcorn from the Kastamonu bazar.
109401. (Undetermined.)
No. T-223. October 2, 1934. Collected about 30 miles west of Samsun.
109402. (Undetermined.)
No. T-334. October 9, 1934. A shrub collected near a stream 6 miles west of Bolu.

109214 to 109406—Continued.

109403. (Undetermined.)
No. T-240. October 3, 1934. A low-growing shrub found on a dry rocky slope 9 miles north of Iskilip. The shrub is grazed by goats.
109404. DIGITALIS sp. Scrophulariaceae.
No. T-237. October 3, 1934. A flowering plant found on rocky slopes about 4 miles north of Iskilip.
109405. (Undetermined.)
No. T-328. October 9, 1934. An unknown legume found on a steep roadside bank 12 miles west of Bolu.
109406. (Undetermined.)
No. T-307. October 5, 1934. A flowering plant found about 15 miles south of Kastamonu.
- 109407 and 109408.
From Java. Seeds presented through A. M. Cramer, Sr., Wonosobo. Received February 25, 1935.
109407. BOUEA GANDARIA Blume. Anacardiaceae.
A large tropical evergreen tree, with glossy oblong leaves, racemes of very small yellow flowers, and egg-shaped fruits about 3 inches long. The small young fruits are pickled in a salt solution and eaten like olives with meat. When ripe, the red fruits are eaten fresh. Native to the East Indies.
For previous introduction see 31865.
109408. LANSIUM DOMESTICUM Jack. Meliaceae. **Langsat.**
Doekoe. A Malayan tree up to 40 feet high, with pinnate leaves composed of five to seven elliptic leaflets each 4 to 8 inches long. The fruits, borne in dense pendulous clusters, vary from oval to round and from 1 to 2 inches in diameter, velvety and straw colored, with a thick leathery skin enclosing juicy aromatic flesh, and one to three large seeds. The seeds are extremely bitter. The best fruits are found in the village of Mèntèng, near Batavia.
For previous introduction see 80998.
109409. FRAXINUS HOLOTRICHA Koehne. Oleaceae. **Ash.**
From Rumania. Seeds collected by Dr. Edgar Anderson, Arnold Arboretum Balkan expedition. Received February 20, 1935.
A small tree with leaves about 8 inches long composed of 9 to 13 leaflets. Collected in the hybrid Fraxinus "Forest," on the Danube delta, a region of very low rainfall and very cold winters.
109410. PASSIFLORA LIGULARIS Juss. Passifloraceae. **Sweet granadilla.**
From South America. Seeds collected by Mrs. Ynes Mexia, Bureau of Plant Industry, at Baños, Tunguragua Province, Ecuador. Received February 25, 1935.
Introduced for Department specialists.
For previous introduction and description see 108829.
