

## 110223. ZEPHYRANTHES sp. Amaryllidaceae.

From Trinidad, British West Indies. Bulbs presented by Dr. S. C. Harland, Cotton Research Station. Received April 5, 1935.

A pink-flowered species, collected in Colombia.

## 110224 and 110225.

From Scotland. Seeds presented by the Royal Botanic Garden, Edinburgh. Received February 25, 1930. Numbered in April 1935.

## 110225. ALLIUM NUTANS L. Liliaceae.

For previous introduction see 104629.

## 110225. ALLIUM NUTANS L. Liliaceae. Onion.

## 110226. ALLIUM TANGUTICUM Regel. Liliaceae. Onion.

From England. Seeds presented by the Royal Botanic Garden, Kew. Received March 1, 1935. Numbered in April 1935.

For previous introduction see 78997.

## 110227. ALLIUM CAERULEUM Pall. Liliaceae. Onion.

From the Netherlands. Bulbs purchased from C. G. Van Tubergen, Ltd., Zwanenburg Nurseries, Haarlem. Received November 1, 1930. Numbered in April 1935.

A blue-flowered onion with slender grassy leaves and 14-inch stalks bearing close heads of small deep-blue flowers.

For previous introduction see 106747.

## 110228 to 110245.

From Africa. Seeds presented by J. B. H. Lejeune, Director, Experiment Station of Kisozi, Kisozi, Ruanda-Urundi. Received March 21, 1935. Numbered in April 1935.

## 110228 to 110233. PHASEOLUS VULGARIS L. Fabaceae. Common bean.

A collection of beans from the territory of Urundi.

110228. A white bean.

110229. A white bean veined with violet.

110230. A white bean veined with black.

110231. A brown bean.

110232. A black bean.

110233. A pink bean veined with brown.

## 110234 and 110235. RICINUS COMMUNIS L. Euphorbiaceae. Castor-bean.

Collected in the territory of Urundi.

110234. The common type.

110235. A form with larger seeds.

## 110236 to 110245. SORGHUM VULGARE Pers. Poaceae. Sorghum.

Sorghums from the territory of Ruanda.

110236. *Ighori*.

110237. *Nyagachara*.

110238. *Mugabo*.

110239. *Amauenzi*.

110240. *Urukina*.

110241. *Nyirogikori*.

110242. *Amagunu*.

## 110228 to 110245—Continued.

110243. *Amagunu* B.

110244. *Ruyongi*.

110245. *Rugori*.

## 110246 to 110253. SORGHUM VULGARE Pers. Poaceae. Sorghum.

From India. Seeds presented by the Agricultural Research Institute, Coimbatore, South India. Received March 25, 1935. Numbered in April 1935.

110246. Pearly white seed.

110247. Chalky or milky-white seed.

110248. Brown seed.

110249. Red seed.

110250. Yellow seed without brown tint.

110251. White seed with yellow base.

110252. Yellow seed with brown tint.

110253. White seed with red base.

## 110254 to 110260. AVENA SATIVA L. Poaceae. Oats.

From Italy. Seeds presented by Professor Todaro, Istituto Sperimentale di Cerealicoltura, Bologna. Received March 25, 1935. Numbered in April 1935.

110254. *Bruna delle Alpi*. No. 227.

110255. *Crema*. No. 228.

110256. *Di Laconia*. No. 224.

110257. *Nera di Tunisia*. No. 221. A very early-maturing black oat.

110258. *Romana primaverale*. No. 9.

110259. *Rousse*. No. 220.

110260. *Soldanelle primaverale*. No. 232.

## 110261 and 110262.

From British Guiana. Seeds presented by the Director of Agriculture, Georgetown, at the request of W. A. Archer, Bureau of Plant Industry. Received March 26, 1935. Numbered in April 1935.

Introduced for Department specialists.

110261. *ALEXA* sp. Fabaceae.

*Hairaballi*.

110262. *STRYGNOS NUX-VOMICA* L. Loganiaceae.

For previous introduction see 7210.

## 110263 and 110264.

From England. Plants presented by G. T. Spinks, University of Bristol Research Station, Long Ashton, Bristol. Received April 4, 1935.

Introduced for Department specialists.

110263. *FRAGARIA* sp. Rosaceae. Strawberry.

*Royal Sovereign*.

110264. *RUBUS FRUTICOSUS* L. Rosaceae. Blackberry.

*Ashton Cross*.

## 110265 and 110266.

From the Union of South Africa. Seeds presented by E. G. Bryant, Prieska. Received March 26, 1935.

Introduced for Department specialists.
