

## 116996 and 116997—Continued.

116997. Collected at 2,000 m. altitude, Salto de Agua.

## 116998. CHAMAELAUCIUM UNCINATUM Schauer. Myrtaceae.

From California. Plant presented by Eric Walther, Golden Gate Park, San Francisco. Received July 29, 1936.

An erect bushy heathlike shrub with opposite hook-shaped linear leaves less than an inch long and small terminal corymbs of cream-colored flowers. Native to Western Australia.

For previous introduction see 86710.

## 116999. ARISTOLOCHIA PAULISTANA Hoehne. Aristolochiaceae.

From Brazil. Seeds presented by the Biological Institute of São Paulo, through F. G. Walsingham, Atkins Institution of the Arnold Arboretum, Soledad, Cienfuegos, Cuba. Received July 23, 1936.

A high-climbing tropical vine with triangular-cordate leaves, obtuse at the apex, 3 to 6 inches long. The flower, yellowish purple spotted with blackish purple, has an ovate lip that is narrowed into a linear limb up to 8 inches in length. Native to São Paulo, Brazil.

## 117000. SACCHARUM. Poaceae. Sugar cane.

From Trinidad, British West Indies. Cuttings presented by the Imperial College of Tropical Agriculture. Received July 3, 1936.

No. B. 2935.

## 117001 to 117004. ELAEAGNUS spp. Elaeagnaceae.

From the Union of Soviet Socialist Republics. Cuttings presented through Dr. I. M. Vavilov, Chief, Institute of Plant Industry, Leningrad. Received July 6, 1936.

117001. No. 24.

117002. No. 92. *Bepa*.

117003. No. 93. *Abahfapa*.

117004. No. 94.

## 117005 to 117012. IPOMOEA BATATAS (L.) Lam. Convolvulaceae. Sweet potato.

From Australia. Tubers presented by Dr. H. Wenzholz, Director of Plant Breeding, New South Wales Department of Agriculture, Sydney. Received July 9, 1936.

A collection of locally grown varieties from Hawkesbury Agricultural College.

117005. *Ashburn*.

117006. *Early Butter*.

117007. *Farmer's Special*.

117008. *H. H. C. Pink*.

117009. *Quaker*.

117010. *Rosella*.

117011. *White Maltese*.

117012. *Wannop*.

## 117013 to 117015. MEDICAGO SATIVA L. Fabaceae. Alfalfa.

From Turkey. Plants collected by H. L. Westover and F. L. Woliman, Bureau of Plant Industry. Received July 11, 1936.

117013. No. 891-A. Wild alfalfa collected in the hills near Gemlik, June 20, 1936.

117014. No. 892. Wild alfalfa collected 25 km. north of Bursa, June 20, 1936.

117015. No. 893. Wild alfalfa collected 10 km. south of Bursa on the slopes of Mount Olympus, June 19, 1936.

117016. PUCCINELLIA KENGIANA Ohwi. (*Puccinellia stricta* Keng). Poaceae. Grass.

From China. Seeds presented by Y. L. Keng, Academia Sinica, National Research Institute of Biology, Nanking. Received July 1, 1936.

From Luho Ku, Kiangsu Province, May 23, 1936. Seeds collected in wheatfields by Charles E. DeVol. A loosely tufted, erect or decumbent annual grass about 18 inches tall. Native to Kiangsu Province, China.

## 117017 and 117018. TRITICUM AESTIVUM L. Poaceae. Common wheat.

From Australia. Seeds presented by the American consulate, Melbourne, Victoria, through the Secretary of State, Washington, D. C. Received July 13, 1936.

Fair average quality Victorian wheat.

## 117019. OCHROMA BICOLORE Rowlee. Bombacaceae.

From Mexico. Seeds presented by Prof. M. Martínez, Mexico, D. F. Received July 1, 1936.

A tall tree, native to Costa Rica; one of the sources of the balsa wood of commerce.

## 117020 to 117040. NICOTIANA spp. Solanaceae. Tobacco.

From Peru. Seeds collected by Raymond Stadelman, Bureau of Plant Industry. Received July 14, 1936.

Nos. 117020 to 117028 were collected in the Departamento Ancash.

## 117020 and 117021. NICOTIANA GLUTINOSA L.

117020. No. 142. May 25, 1936. From the Cañon del Pato, Rio Santa, between 1,500 and 1,800 m. altitude.

117021. No. 143. From Mayucayan at 1,400 m. altitude May 25, 1936.

## 117022 to 117039. NICOTIANA TABACUM L. Common tobacco.

Nos. 117022 and 117023 were collected at Huarás, May 21, 1936, at 3,025 m. altitude.

117022. No. 135. 117023. No. 136.

117024. No. 137. From Sacsacpampa, near Huarás, May 22, 1936, at 3,600 m. altitude.

117025. No. 138. From Huarás, May 22, 1936, at 3,025 m. altitude.

117026. No. 139. From Paria Huanca, May 24, 1936, at 2,800 m. altitude.
