

20001 to 20229—Continued.

20182. *ADLUMIA* sp.

From the mountains of northern Korea. "(No. 457a, Aug. 23, 1906.) An ornamental, perennial climber with graceful foliage and bearing many racemes of drooping rosy flowers." (*Meyer.*)

20183. *RICINUS COMMUNIS*.

Castor-oil plant.

From northern Korea. "(No. 458a, Aug. 5, 1906.) A cultivated variety of the spineless castor bean found growing among plants of the spiny variety." (*Meyer.*)

20184. (Undetermined.)

From Tchien-shan Mountains, Manchuria. "(No. 459a, June 7, 1906.) An umbelliferous plant, the rhizome of which is used for medicinal purposes by the Chinese. This plant was found growing on dry, shady spots in decomposed rock." (*Meyer.*)

20185. *IRIS* sp.

Iris.

From northern Korea. "(No. 460a, Aug. 29, 1906.) An early flowering iris of northern China, Manchuria, and northern Korea growing on very dry ground; flowers pale blue." (*Meyer.*)

20186. *IRIS* sp.

Iris.

From the mountains of northern Korea. "(No. 461a, Aug. 24, 1906.) An iris found growing in a wet meadow. This is a very rare plant and may be an ornamental." (*Meyer.*)

20187. *HEMEROCALLIS* sp.

From the mountains of northern Korea. "(No. 462a, Aug. 25, 1907.) An ornamental garden plant bearing large, sulphur-yellow flowers which open at sunset; the flowers have a pleasant odor." (*Meyer.*)

20188. *HEMEROCALLIS* sp.

From the mountains of northern Korea. "(No. 463a.) An ornamental garden perennial growing in high altitudes." (*Meyer.*)

20189. *PARDANTHUS* sp.

From the mountains of northern Korea. "(No. 464a, Aug. 28, 1906.) An ornamental garden perennial." (*Meyer.*)

20190. *PARIS* sp.

From the primeval forest of Bo-tau-shan, northern Korea. (No. 465a, Aug. 23, 1906.)

20191. *CONVALLARIA* sp.

From A-teuk-ryong, northern Korea. "(No. 466a, Aug. 10, 1906.) Plant bears red berries on stalks which resemble *C. polygonatum*." (*Meyer.*)

20192. (Undetermined.)

From the mountains of northern Korea. "(No. 467, Aug. 13, 1906.) A rather ornamental, broad-leaved liliaceous plant growing at high elevations in the dense forest and bearing a spike with blue berries." (*Meyer.*)

20193. (Undetermined.)

From the primeval forest of Bo-tau-shan, northern Korea. "(No. 468a, Aug. 25, 1906.) Probably the same as No. 467a (S. P. I. No. 20192), but from a different locality." (*Meyer.*)

20194. (Undetermined.)

From the primeval forest of Bo-tau-shan, northern Korea. "(No. 469a, Aug. 25, 1906.) The same as Nos. 467a and 468a (S. P. I., Nos. 20192 and 20193), but bearing black berries." (*Meyer.*)
