

143589. GLADIOLUS sp.

No. 8066. Flowers probably purple, white-throated.

143590. GLAUCIUM sp. Papaveraceae.

No. 8083. Bushy perennial, 18 feet high, bearing an abundance of large poppy-like flowers.

143591. GUNDELIA TOURNEFORTH L. Asteraceae.

No. 8012. *Kangar*. A thistly perennial plant of dry slopes; the leaf bases, eaten in early spring, make a delicious vegetable.

For previous introduction see 81000.

143592. HEDYSARUM sp. Fabaceae.

No. 8072. A plant forming clumps 2½ feet across. The large yellow flowers are in spikes 18 inches high.

143593. HORDEUM SPONTANEUM L. Poaceae.**Barley.**

No. 7986. Narrow-headed, 2-rowed, wild barley.

143594. HYACINTHUS sp. Liliaceae.

No. 8006. Plant with large open spike of pale-blue flowers, growing in marshes that later dry up.

143595. IRIS sp. Iridaceae.

No. 7992. Bulbous, early-flowering, much like *Iris persica*, but with large flowers.

143596. IRIS sp.

No. 8048. Clump form, 3 feet high, with handsome yellow flowers 3 inches in diameter. Grows on damp ground.

143597. IRIS sp.

No. 8070. Plant 1 foot high; flowers 6 inches in diameter, heavily reticulated with madder purple, with dark spot in falls; very choice species.

143598. IRIS sp.

No. 8082. Plant forming clumps; flowers 1½ inches across, violet, chocolate-scented, borne over a long period.

143599. IRIS sp.

No. 8095. A clump species 4 feet high, growing along springs that dry up in summer; flowers 3 inches in diameter, yellow.

Nos. 143600 to 143602 were collected in Kebara, Luristan, June 17, 1941.

143600 to 143602. LATHYRUS ANNUUS Hoejer. Fabaceae.**Pea.**

143600. No. 8007. Growing on edge of marsh; standard lemon, veined red brown; wings yellow; lip greenish yellow.

143601. No. 8022. Growing in fields; flowers small, few, rose purple.

143602. No. 8023. Growing in fields; flowers few, small, rose purple, pale on reverse, deeply veined; wings lavender; lip yellow.

Nos. 143603 to 143621 were collected in Durud, Luristan, June 1941.

143603. LATHYRUS sp.

No. 8080. Scandent, 6 feet high; growing along springs; flowers 1¼ inches in diameter, lemon, standard with a spot veined red brown.

143604. LATHYRUS sp.

No. 8083. Erect perennial, growing in clumps 3 feet high; flowers 1½ inches across, rose purple.
