

**145817. CASSIA ANGUSTIFOLIA Vahl. Caesalpiaceae.**

From Madras, India. Received April 9, 1943.

A small shrub that is one of the sources of the drug known as senna. It requires little irrigation, and is native to Arabia and East Africa.

For previous introduction see 47974.

**145818 to 145821. PYRUS COMMUNIS L. Malaceae. Common pear.**

From Ontario. Scions presented by the Horticultural Experiment Station, Department of Agriculture, Vineland Station. Received April 13, 1943.

145818. No. 29012. (Selected seedling of Bartlett × P.I. 26485).

145819. No. 29014. (Selected seedling of Bartlett × P.I. 26485).

145820. No. 29015. (Selected seedling of Bartlett × P.I. 26485).

145821. No. 29018. (Selected seedling of Bartlett × P.I. 26485).

**145822. LOROMA AMETHYSTINA O.F.Cook. Phoenicaceae. Palm.**

From Mexico. Seeds presented by Raymundo W. Schulz, Cuernavaca, Morelos. Received April 8, 1943.

**145823 to 145825. ZEA MAYS L. Poaceae. Corn.**

From Canada. Seeds presented by T. F. Ritchie, Central Experimental Farm, Division of Horticulture, Ottawa. Received April 15, 1943.

145823. *Dorick O-D-530*.

145824. *Dorinny O-D-529*.

145825. *Goldban Ste-C*.

**145826 to 145830.**

From Ontario. Scions presented by G. H. Corsan, Echo Valley, Islington. Received April 20, 1943.

**145826 to 145828. JUGLANS NIGRA L. Juglandaceae. Black walnut.**

145826. *Gifford*.

145827. *Learn*.

145828. *Nielson*.

For previous introduction see 143883.

**145829. JUGLANS REGIA L.**

**Persian walnut.**

For previous introduction see 145555.

**145830. JUGLANS CORDIFORMIS var. AILANTIFOLIA × CINEREA.****145831. CASSIA ANGUSTIFOLIA Vahl. Caesalpiaceae.**

From India. Seeds obtained through the Board of Economic Warfare, Washington, D.C.

For previous introduction see 145817.

**145832. IXOPHORUS UNISSETUS (Presl) Schlecht. Poaceae.**

**Molino grass.**

From Colombia. Seeds presented by the Buga Experiment Station, Cauca Valley, through H. V. Geib, American Embassy, Bogotá. Received April 9, 1943.

For previous introduction see 71388.

**145833 to 145837.**

From Colombia. Seeds presented by the Rio Negro Experiment Station, Antioquia, through H. V. Geib, American Embassy, Bogotá. Received April 9, 1943.
