

**264353 to 264357. VITIS VINIFERA L. Vitaceae.****European grape.**

From Iran. Cuttings collected and presented by O. C. Kirk, University of Utah, Howell Field Station, North Ogden. Received from Adjaptshar, Azerbaijan, March 25, 1960.

**264353.** 'Fakhri'. **264356.** 'Gezel Uzum'.

**264354.** 'Galline Barmagi'. **264357.** 'Sahebi'.

**264355.** 'Gayss Angor'.

**264358 to 264388.**

From the Union of Soviet Socialist Republics. Seeds presented by the All-Union Institute of Plant Breeding, Leningrad. Received March 25, 1960.

**264358.** *AELUROPUS LITTORALIS* (Gouan) Parl. Poaceae.

**264359.** *AELUROPUS REPENS* (Desf.) Parl.

**264360 to 264372.** *JUGLANS REGIA* L. Juglandaceae. **Persian walnut.**

**264360 to 264369.** From the Majkop Experiment Station.

**264360.** 'Detskij'. Average nut weight 9.5 grams; kernel output 52.1 percent; oil content 66.4 percent; protein content 21.6 percent. Tree survives  $-33^{\circ}$  C.

**264361.** 'Dzigit'. Average nut weight 15 grams; kernel output 45 percent; oil content 66.7 percent. Tree survives  $-33^{\circ}$  C.

**264362.** 'Kolobk'. Average nut weight 10.6 grams; kernel output 50 percent; oil content 65 percent. Tree survives  $-33^{\circ}$  C.

**264363.** 'Kubanskij'. Average nut weight 11.5 grams; kernel output 50.4 percent; oil content 72.2 percent; protein content 18.7 percent. Tree survives  $-33^{\circ}$  C.

**264364.** 'Jelocnyj Velikan'. Average nut weight 23 to 32 grams; kernel output 43 percent; tree winter hardy.

**264365.** 'Maljutka'. Average nut weight 8 grams; kernel output 54.4 percent; oil content 73.8 percent; protein content 16.5 percent. Tree survives  $-33^{\circ}$  C.

**264366.** 'Majkopskij'. Average nut weight 15 grams; kernel output 50 percent; oil content 70.2 percent; protein content 18.4 percent. Tree survives  $-33^{\circ}$  C.

**264367.** 'Pioner Majkopa'. Average nut weight 16.4 grams; kernel output 54 percent; oil content 71.8 percent. Tree survives  $-35^{\circ}$  C.

**264368.** 'Sputnik'. Average nut weight 10.3 grams; kernel output 49 percent; oil content 70 percent. Tree survives  $-33^{\circ}$  C.

**264369.** 'Suntuk'. Average nut weight 11.3 grams; kernel output 53.4 percent and oil content 65 percent. Tree survives  $-33^{\circ}$  C.

**264370 to 264372.** From the Bostandyk Test Field. Varieties resistant to late spring frosts.

**264370.** 'Bostandykskij'. Selected from the wild. Resistant to late spring frosts. Average nut weight 13.26 grams; kernel output 48.5 percent; sugar content 2.2 percent; oil content 68.8 percent.

**264371.** 'Jubilejnyj'. Selected from the wild. Resistant to late spring frosts. Average nut weight 11.72 grams; kernel output 50.4 percent; sugar content 1.6 percent; oil content 69.34 percent.

**264372.** 'Ideal'. Selected from cultivated plantings. Hardy, precocious, annual bearer. Resistant to late spring frosts; produces second crop of flowers. Average nut weight 10.25 grams; kernel output 50.8 percent; sugar content 3 percent; oil content 67.1 percent.
