

36283 to 36484—Continued.

The fruit is longer than that of *Passiflora ligularis*, being about 4 inches long and $1\frac{1}{2}$ to $1\frac{3}{4}$ inches in diameter."

36362 and 36363. *PASSIFLORA LIGULARIS* JUSS. **Passion fruit.**

36362. "(No. 588. Oruro, Bolivia.) This fruit is 2 or 3 inches in diameter and very agreeable in taste, being much prized by many foreigners as well as by the natives. It comes from some of the valleys a few days' journey from Oruro and at a lower altitude."

36363. "(No. 668. Lima, Peru.) Fruit of *Passiflora*, common in the market at Lima."

36364. *PHYSALIS* sp.

"(No. 47. Arequipa, Peru.) A very good *Physalis*, grown in a garden at Arequipa and used for making preserves."

36365. *PIMPINELLA ANISUM* L. **Anise.**

"(No. 305. Peru.) Anise seed grown by the Indians."

36366 to 36368. *PIPTADENIA* spp.

36366. "(No. 399. Oruro, Bolivia.)"

36367 and 36368. *PIPTADENIA CEBIL* GRISEBACH. **Cebil.**

36367. "(No. 329. Cuzco, Peru.) Seeds, probably of some tropical tree. Native name *Huilca*. Obtained from an Indian medicine woman at Cuzco."

36368. "(No. 380. Oruro, Bolivia.) Probably a tropical tree. Obtained from an Indian medicine woman."

36369 and 36370. *PISUM SATIVUM* L. **Pea.**

36369. "(No. 316. Peru.)"

36370. "(No. 620. Cuzco, Peru.) A variety of *Pisum* grown by the Indians near Cuzco."

36371. *PRUNUS SALICIFOLIA* H. B. K. **Black cherry.**

"(No. 593. Cuzco, Peru.) *Capoilles*. This *Prunus* grows wild about 25 miles from Cuzco and at a lower altitude, perhaps 8,000 or 9,000 feet, and is a native species. The fruit is about as large as an Early Richmond cherry. Mr. Payne, an English farmer beyond Cuzco, expects to try it as a stock for the sweet cherry and believes it will enable him to grow the latter fruit in that part of Peru."

36372 to 36374. *PSIDIUM GUAJAVA* L. **Guava.**

36372. "(No. 579. Arequipa, Peru.) A pear-shaped guava, $3\frac{1}{2}$ to 4 inches long."

36373. "(No. 658. Arequipa, Peru.) A large pear-shaped guava from Arequipa."

36374. "(No. 581. Arequipa, Peru.) A large guava, about 3 inches long and slightly pear shaped. Brought to the Arequipa market by the Indians. These trees sometimes reach a height of 20 feet in Peru."

36375. *RICINUS COMMUNIS* L. **Castor bean.**

"(No. 314. Arequipa, Peru.) *Ygerilla*. Seeds obtained from an Indian medicine woman in Arequipa, from whom no reliable information could be obtained."
